

# Dolphins touch your heart strings....

## Important Information

### Rules for participants of our swim-with-dolphins programs

Mental and physical health of each swimmer is required!

The swimming with dolphins for "everyone" takes place in a separate dolphin pool, which is only used for the touristic swimming dolphins.

The animals are specially trained to play and be pet by swimmers. Participants of this program should not apply sun block lotions - oils - creams or medical skincare before the dolphin swim.

All jewelry such as necklaces, bracelets, rings and earrings must be taken off before the swim.

Participants with overly long fingernails will be declined. Special care has to be taken not to touch the eyes or the blow hole of the dolphins.

Experience unforgettable harmony with the angels of the ocean and the treat the dolphins with special care and love, as you would your own child.
